STONE EFFECT

Realstone_Ceppo

natural patterns

The porcelain stoneware collection accurately replicates the appearance of Ceppo di Gré stone, characterised by included pebbles of different sizes that add interest to its neutral background. Four colors, in two cold and two warm shades, are offered in the new large 90x180 cm size, as well as in 120x120, 60x120 and 60x60 cm. The collection is completed by the Preinciso Listel Tile in 14x120 cm, a decorative piece with a scored surface ideal for creating contemporary boiserie panels, and the more traditional Triangoli Mosaic in 29x39 cm size.

Realstone_Ceppo is also available with structured finish providing excellent anti-slip properties in 120x120 and 60x120 cm sizes, to enhance the appeal of residential and commercial projects with perfect continuity of appearance between indoor flooring and outdoor paving. The Outdoor surface is also available in 20 mm thickness and extends the options for installation on grass, gravel, sand, raised paving systems and driveways.
